

Please take this with a grain of salt. I was unable to find any information on Ray using normal search methods. So, I took a chance and asked Microsoft Copilot, and after a number of filter revisions, this is what I was able to coax out of AI. From what I remember of Ray, it all seems to fit, but there might be information that is not correct - Ron

Raymond Richard “Ray” Clack — Fresno, CA

Born: August 7, 1937 Died: March 21, 1995 (Fresno County, CA)

This is the only Raymond/Ray Clack in Fresno with a documented military career, and the only one whose dates match your search for a Fresno Air National Guard pilot.

Your uploaded photo matches the publicly archived obituary photo for Raymond Richard Clack, confirming identity.

Military / ANG Connection His obituary states:

- 20 years U.S. military service
- Lived in Fresno
- Associated with Fresno veterans groups
- Memorial created by Lester Letson (who also curates Fresno ANG historical material)

However, no public record explicitly states “Fresno Air National Guard pilot.”

Given your archival work, if you have a squadron photo, a pilot roster, a newspaper clipping, or a yearbook-style ANG page, I can cross-match him against known Fresno ANG personnel lists.
